

AIMS & PRINCIPLES
OF HARINGEY SOLIDARITY GROUP

1. We are a working class organisation of people living or working in Haringey.
2. We seek to build resistance to attacks on our class by governments (local and national) and the bosses.
3. We aim to give practical assistance and solidarity to all people involved in struggles in their workplace.
4. We support local resistance to the Poll Tax, dole cuts and forced labour schemes for the unemployed, the deportation of refugees and immigrants, bad housing and homelessness, and any other issues that affect the working class.
5. We are for active opposition to racism and racist attacks from the police and other racists and fascists.
6. We are for active opposition to sexism and support women's self organisation and struggle.
7. We are opposed to discrimination on the grounds of sexuality and support gay and lesbian self organisation and struggles.
8. We are actively opposed to all forms of discrimination on grounds of disability and age.
9. We are opposed to the pollution, exploitation and destruction of the natural environment and support ecological struggles.
10. We reject the labour party and all other political parties, T.U.C. bureaucrats and parliament.
11. We are for the direct control of struggles by everybody involved in them and are for direct action in the workplace and community.
12. We encourage people in different working class struggles linking together for mutual support.
13. Ultimately we seek the abolition of the present social system where the rich and powerful exploit the rest of us.
14. We want a social system based on freedom, equality and social justice.
